- **University of Fortaleza (UNIFOR) | CE Brazil**
  Computer Science
  Graduation date » Jun 2026
  3/8 Full Semester

- Tiradentes School | CE Brazil
  High School (12th)
  Completed in 2021

- Paiva Andrade School | CE Brazil
  Middle and High School (6th - 11th)
  Completed in 2020

About Me

I'm a passionate programmer with a strong background in JavaScript, specializing in system maintenance using Angular (front-end) and Sequelize (back-end) frameworks. With three years of experience in JavaScript, I've developed the flexibility to adapt to various technologies. I also have expertise in web development using HTML, CSS, and pure JavaScript. I'm a resilient problem solver.

Professional Experience

RBS Technology
2022 – Present

Key responsibilities:
- Information technology support
- Maintenance of the contractor's systems and websites
- Systematic Analysis
- Development
- Improvements
- Other services related to information technology

Central Baptist Church of Fortaleza
Agoust 2022 – May 2023 (trainee)
2016 - present (community service)

Key responsibilities:
- Administrative assistant in the event production sector
- Slide development
- Manager of two church servants
- Event organizer and producer

Achievements

2021 – 2022 Developed the first business control system for sales companies, without frameworks and with a database without using APIs.
HTML, CSS, JavaScript, PHP, MySQL
Purpose: Self-learning

2023 I built my first game, even though it was a college prototype experiment work, doing it for the first time without any help, with my own ideas was really cool.
